This will be the 30<sup>th</sup> ISSMA State Finals appearance for the Blackhawk Brigade. This is a huge honor for the band program and all of the students, staff and parents that have added to the rich tradition of our program. John Aylsworth would be so proud and happy about this accomplishment. He looked forward to it for so long.

Always remember what it takes to get to this level of competition. Remember all of the sacrifice, hard work, dedication, and expense that was needed to arrive at this moment. This band has added itself to a storied tradition. From this moment on, future members of the Blackhawk Brigade will see "2019" when they see the semi. Future students will look at this year's band as an example of success. This is something that cannot be taken away from this band. No judge, rating, ranking, placement, or comment can ever take this honor away from the students. Keep this in mind during the awards ceremony. We have already been successful this season and our goals of improving have been met. Enjoy State Finals and do not get too discouraged or excited with the placing. However, DO get excited and encouraged to produce the best performance of the season and possibly of our program's history. Remember - Luck is where preparation meets opportunity. Our preparation is complete! It is now time to take advantage of the opportunity in front of us.

**"We choose to go to the moon in this decade and do the other things, not because they are easy, but because they are hard. Because that goal will serve to organize and measure the best of our energies and skills. Because that challenge is one that we are willing to accept, one we are unwilling to postpone, and one which we intend to win, and the others, too."**
